FOR IMMEDIATE RELEASE

STORM CHASE VIDEO COMPANY HITS MILESTONE

SevereStudios.com tops 400 independent live streamers

Mitchell, South Dakota, March 5, 2010 – SevereStudios, the leader in on-the-scene severe weather broadcasting, has announced a 400th storm chaser has signed up to stream live video through their website, www.severestudios.com.

In addition, SevereStudios now retains over 30 contracted professional storm chasers who supply live and recorded severe weather footage to local TV stations, national news networks, production companies, and other weather-based websites. Their video has been seen on The Weather Channel, CNN, The Discovery Channel and more.

SevereStudios CEO and storm chaser Kory Hartman said, "I am thrilled to announce this major milestone in the history of SevereStudios. During storm season, our website visitors can expect to see live streaming video from coast to coast and around the world. In fact, we have streamers from Europe and Australia that come to the United States to chase in the Great Plains. Our growth has been tremendous and I thank each storm chaser who has joined us."

Hartman continued, "Our goal at SevereStudios is to get critical weather information to the public when they need it most. With this many independent chasers, we can cover just about every severe weather event. The National Weather Service, emergency managers, and local media can watch the live video, make decisions about safety, and alert the public."

About SevereStudios Inc.

SevereStudios Inc. is the leader in live severe weather streaming. Using technology perfected by SevereStudios, storm chasers stream live video while actively chasing storms to the Live ChaseCam Network. These live feeds can then be viewed by local, national, and world-wide media, the National Weather Service, and website visitors. The SevereStudios "Live ChaseCam Network" has been viewed by hundreds of meteorologists and millions of individuals all over the world. The company's mission is to develop and promote initiatives that focus on better severe weather preparedness.

SevereStudios video has been seen on local television stations and cable networks worldwide. The members of the SevereStudios Chase Team have over 100 years combined experience storm chasing and videotaping severe weather events. Their portfolio includes numerous large tornadoes, deadly hurricanes, extreme hail, debilitating blizzards, raging wildfires and more.
